Plate 1. General view of experimental plot
Plate 2. Difference in ovary length and pubescence among different local muskmelon cultivars

1. COHB-022  2. COHB-032  3. COHB-016
4. COHB-018  5. COHB-037  6. COHB-003
Plate 3. Variation with respect to flesh colour and thickness among local muskmelon cultivars
Plate 4. Variation with respect to pistil scar size among local muskmelon cultivars
Plate 5. Variation with respect to fruit shape and skin patterns among local muskmelon cultivars
Plate 6. Variation in seed length and shape among different local muskmelon cultivars

1. COHB-038  
2. COHB-037  
3. COHB-041  
4. Durgapur Madhu  
5. K.ashi Madhu  
6. COHB-032  
7. COHB-005  
8. COHB-013  
9. COHB-015  
10. COHB-034  
11. COHB-006  
12. COHB-002
Plate 7. Reaction of some of the muskmelon local types for downy mildew disease
Plate 8. Best muskmelon local types for ovary length, fruit length and flesh thickness
