<tbody>
<tr>
<td>3.1a</td>
<td>Meteorological data recorded during the crop season (October 2015 to January 2016)</td>
<td>24</td>
</tr>
<tr>
<td>3.1b</td>
<td>Meteorological data recorded during the crop season (January 2016 to April 2016)</td>
<td>25</td>
</tr>
<tr>
<td>3.2</td>
<td>Pshico – chemical analysis of experimental soil before experiment</td>
<td>26</td>
</tr>
<tr>
<td>4.1</td>
<td>Effect of physical treatments and benzyl adenine on percentage of sprouting at different stages of growth in gladiolus cv. ‘Psittacinus’.</td>
<td>39</td>
</tr>
<tr>
<td>4.1.1</td>
<td>Interaction effect of physical treatments and benzyl adenine on sprouting percentage at different stages of growth in gladiolus cv. ‘Psittacinus’</td>
<td>40</td>
</tr>
<tr>
<td>4.2</td>
<td>Effect of physical treatments and benzyl adenine on plant height of at different stages of growth in gladiolus cv. ‘Psittacinus’.</td>
<td>42</td>
</tr>
<tr>
<td>4.2.1</td>
<td>Interaction effect of physical treatments and benzyl adenine on on plant height at different stages of growth in gladiolus cv. ‘Psittacinus’.</td>
<td>43</td>
</tr>
<tr>
<td>4.3</td>
<td>Effect of physical treatments and benzyl adenine on number of leaves of at different stages of growth in gladiolus cv. ‘Psittacinus’.</td>
<td>46</td>
</tr>
<tr>
<td>4.3.1</td>
<td>Interaction effect of physical treatments and benzyl adenine on number of leaves at 60 DAP in gladiolus cv. ‘Psittacinus’</td>
<td>47</td>
</tr>
<tr>
<td>4.4</td>
<td>Effect of physical treatments and benzyl adenine on number tillers per plant in gladiolus cv. ‘Psittacinus’</td>
<td>49</td>
</tr>
<tr>
<td>4.4.1</td>
<td>Interaction effect of physical treatments and benzyl adenine on number of tillers per plant in gladiolus cv. ‘Psittacinus’</td>
<td>50</td>
</tr>
<tr>
<td>4.5</td>
<td>Effect of physical treatments and benzyl adenine days required for emergence of first spike, days required for opening of first floret in gladiolus cv. “Psittacinus”</td>
<td>52</td>
</tr>
<tr>
<td>4.5.1</td>
<td>Interaction effect of physical treatments and benzyl adenine on days required for emergence of first spike and days required for opening of first floret in the spike of gladiolus cv. “Psittacinus”</td>
<td>53</td>
</tr>
<tr>
<td>4.6</td>
<td>Effect of physical treatments and benzyl adenine on flowering span and fresh weight of whole spike in gladiolus cv. ‘Psittacinus’.</td>
<td>56</td>
</tr>
<tr>
<td>4.7</td>
<td>Effect of physical treatments and benzyl adenine on number of spikes per plant, number of spike per plot and yield of spike per hectare in gladiolus cv. ‘Psittacinus’.</td>
<td>58</td>
</tr>
</tbody>
</table>
4.7.1 Interaction effect of physical treatments and benzyl adenine on number of spikes per plant, number of spike per plot and yield of spike per hectare in gladiolus cv. ‘Psittacinus’

4.8 Effect of physical treatments and benzyl adenine on length of spikes and length of rachis in gladiolus cv. ‘Psittacinus’.

4.8.1 Interaction effect of physical treatment and benzyl adenine on length of spike and length of rachis in gladiolus cv. “Psittacinus”

4.9 Effect of physical treatments and benzyl adenine on number of florets per spike and floret diameter in gladiolus cv. ‘Psittacinus’.

4.9.1 Interaction effect of physical treatment and benzyl adenine on floret diameter in gladiolus cv. ‘Psittacinus’

4.10 Effect of physical treatments and benzyl adenine on insitu longevity of spike and vase life in gladiolus cv. ‘Psittacinus’.

4.11 Effect of physical treatments and benzyl adenine on number of corms per plant and number of cormels per plant in gladiolus cv. ‘Psittacinus’.

4.11.1 Interaction effect of physical treatment and benzyl adenine on number of corms and number of cormels per plant in gladiolus cv. “Psittacinus”

4.12 Effect of physical treatments and benzyl adenine on yield of corms per hectare and yield of cormels per hectare in gladiolus cv. ‘Psittacinus’.

4.12.1 Interaction effect of physical treatment and benzyl adenine on yield of corms per hectare and yield of cormels per hectare in gladiolus cv. “Psittacinus”

4.13 Effect of physical treatments and benzyl adenine on average weight of corms per plant and average weight of cormels per plant in gladiolus cv. ‘Psittacinus’.

4.13.1 Interaction effect of physical treatments and benzyl adenine on average weight of corms per plant and average weight of cormels per plant in gladiolus cv. ‘Psittacinus’.

4.14 Effect of physical treatments and benzyl adenine on average diameter of corms in gladiolus cv. ‘Psittacinus’

4.14.1 Interaction effect of physical treatment and benzyl adenine on average diameter of corms in gladiolus cv. ‘Psittacinus’

4.15 Economics of gladiolus cv. ‘Psittacinus’ as influenced by physical treatments and benzyl adenine.
