ACKNOWLEDGEMENTS

After a journey of my research work, time has come to look back and remember all those without whom this journey would have been quite uneasy. It is true that nothing comes worthwhile in life without efforts. These people, in their own way, have helped me to face difficult situations.

I consider myself honored to have worked under my guide Dr. M. K. Mandavia, Professor, Department of Biotechnology. Her admirable foresight, helpful nature, and sense of discipline, profound knowledge and devotion to her work was always a source of inspiration which helped me to complete this study. Words are inadequate to express my gratitude.

I am particularly beholden to my minor guide Dr. B. A. Golakiya, Professor and Head, Department of Biotechnology, for teaching me minute things whether it was related to my topic or not. His belief in me helped me to strengthen my mind during all ups and downs.

I wish to express my sincere gratitude and thanks to members of advisory committee: Dr. U. K. Kandoliya, Dr. M. K. Mahatma and Dr. S. M. Upadhyay.

I also record my sincere thanks to the authorities of the Junagadh Agricultural University Junagadh, Dr. A. R. Pathak, Vice Chancellor, Dr. V. P. Chovatia, Director of Research and P.G. Dean and Dr. B. K. Sagarka, Principal, College of Agriculture, JAU. Junagadh; to providing necessary facilities during this scrutiny. I am thankful to Dr. P. V. Patel, Director of student welfare, College of Agriculture, J. A. U. Junagadh.

I express my sincere and heartfelt thanks to Dr. Shradha Bhatt, Dr. R. S. Tomar, Dr. H. P. Gajera, Mr. M. V. Parakhia, Dr. G. V. Maraviya, Mrs. Viraj Rathod and Dr. Ashish Vala of Department of Biotechnology, JAU, Junagadh for their help during my research work.

I also record my deep sense of gratitude to, Department of Science and technology, New Delhi for awarding me with an Inspire Fellowship for pursuing my doctoral degree.

I wish to express my deep sense of gratitude to, Dr. P. H. Tank, Principal and Dean, Dr. B. B. Javia, Dr. D. B. Barad and Dr. B. Mathapati, Department of Veterinary Microbiology, Dr. U. D. Patel, Department of pharmacology and toxicology, College of Veterinary, JAU, Junagadh for his kind counsel during my study, for his invaluable suggestion and constant encouragement.
I also express my unboundful and sincere thanks to Mr. Vijay G. vyas and Mr. H. M. Chavada and Mr. Vijay K. Bajaniya, Mr. J. M. Sodhabhai who spent their lots of time helped in purchasing the laboratory requirements and assistance for completing the research in time bound and for their help during my research work.

It was a wonderful experience to work in a lab with Rohitbhai, Rajbhai, Tusharbhai, Jayminbhai, Khyati and Nehaben.

Mitali, Madhavi, Saumya, Roshaniben, Halak, Nilam, Amisha, Bhumi and Shital deserve a special mention for their immense help and moral support during persuasion of my research work. Thank you for showing me a path when I could see fog around me.

Like my own life, the genesis of this thesis has been possible only because of the endless love, confidence and blessing that my Father Mr. Bhupendrabhai, my Mother Mrs. Bhadraben, my dearest brother Keval, my dear sisters Hetal and priyanka, my both sister’s husband Parag and Jigar constantly showered on me throughout my study.

Enunciation is not enough to express my gratitude to Father in law Mr. Prafulbhai, my Mother in law Mrs. Anilaben, my Sister in law Charmi and my Sister in law’s Husband Dipak whose selfless love, filial affection, constant encouragement, sincere prayers, expectations and blessings have always been vital source of inspiration in my life. All cannot be mentioned but none is forgotten.

Special thanks to my dear Husband Viral Joshi for his continued and unfailing love, support and understanding underpins my persistence in Doctoral carrier and make the completion of this thesis possible.

I am always thankful to almighty God.

Grateful and indebted
