...It is impossible to start...

With immense pleasure and deep sense of gratitude, I take this privilege to express my indebtedness to my major advisor Dr. M. K. Mandavia, Professor, Department of Biochemistry, Junagadh Agricultural University, Junagadh for her valuable guidance, constant encouragement, ever willing help, sustained interest, constructive criticism and judicious supervision throughout the course of this investigation and scrutinizing the thesis right from the selection of my research problem up to the final shaping of the thesis in the present form.

My sincere gratitude to my co-guide, Dr. U. K. Kandoliya, Associate professor, Department of Biotechnology, whose contribution for this work has been indispensable. I am grateful to the members of my Advisory Committee Dr. G. V. Marviya, Assistant professor (Biochemistry) and Dr. S. M. Upadhyay, Professor and Head (Agril. Statistics), JAU, Junagadh, for their constant attention, formulation of curriculum and offering valuable suggestions throughout the period of investigation.

I consider myself honored to have worked under inspiration of Dr. B. A. Golakiya, Professor and Head, Department of Biotechnology, His admirable foresight helpful nature, sense of discipline, profound knowledge and devotion to his work was always a source of inspiration which helped me to complete this study. Words are inadequate to express my gratitude.

My sincere thanks are also due to Dr. H. P. Gajera, Mr. M. V. Parakhia, Dishadidi, Abhadidi, Rajsir and other staff of the Department of Biochemistry and Biotechnology for their kind helps during my post graduate programme.
My special thanks are to Dr. R. K. Javiya, Assistant professor, Pulses Research Station, JAU for providing the chickpea genotype and kind cooperation.

I wish to convey my special thanks to my friends and colleagues Mital, Niral, shivani, Meera, Priyanka, Krupal and Gautam. Senior colleagues Harshitadidi, Rushitadidi and Rahulbhai for their help and joyful company during the entire course of investigation and preparation of this thesis.

Like my own life, the genesis of this thesis has been possible only because of the endless love, confidence and blessing of Dr. Padma Ambalam for constantly showered on me throughout my study. Her admirable foresight helpful nature, profound knowledge and devotion to her work was always a source of inspiration which constantly encouraging me to complete this study. Words are inadequate to express my gratitude. My thesis would not have been possible without her kind support and encouragement.

Declaration is not enough to express my gratitude to My mother, My father and My dearest brother whose selfless love, sincere prayers, expectations and blessings have always been vital source of inspiration in my life.

To all of you whom I have named please accept my deepest thank and to whom I have not named, please know that even though you are unnamed in this work you are not unknown to me and you are appreciated with more thanks.

Last but not least, I thank the almighty and my great caretaker, “God” for his blessings to me.

Grateful and indebted
