ACKNOWLEDGEMENT

My postgraduate journey is nearing an end. Pursuing a M. Sc. is both painful and enjoyable experience. It’s just like climbing a high peak, step by step, accompanied with bitterness, hardships, frustration, encouragement and trust and with so many people’s kind help. When I found myself at the top enjoying the beautiful scenery, I realized that it was, in fact, teamwork that got me there. Though it will not be enough to express my gratitude in words to all those people who helped me, I would still like to give my many thanks to all these people.

Indeed the words at my command are not adequate to convey the depth of my feeling and gratitude to my honourable major guide, Dr. S. B. Chaudhari, Assistant Research Scientist, Department of Genetics and Plant Breeding, College of Agriculture, JAU, Junagadh, for him most valuable and inspiring guidance with him friendly nature, love and affection, for him attention and magnanimous attitude right from the first day, constant encouragement, enormous help and constructive criticism throughout the course of this investigation and preparation of this manuscript.
