ACKNOWLEDGEMENT

I have unique privilege and pleasure to express my deep sense of gratitude and sincere thanks to my honorable Major Advisor, Dr. N. K. Dhamsaniya, Associate Professor, Department of Processing and Food Engineering, College of Agricultural Engineering and Technology, Junagadh Agricultural University, Junagadh for his keen and abiding interest, illuminating guidance, constant encouragement, sympathetic attitudes, amiable behavior and keen interest throughout the course of studies, research work and preparation of manuscript.

I am obliged to my minor advisor, Dr. P. J. Rathod, Assistant Professor, Department of Biotechnology, College of Agriculture, Junagadh Agricultural University, Junagadh for his constant support, guidance and valuable suggestions throughout this research for biochemical analysis.

I express my deepest sense of regards to Prof. D. M. Vyas, Professor and Head, Processing and Food Engineering Department, College of Agricultural Engineering and Technology, Junagadh Agricultural University, Junagadh for providing all the necessary infrastructure throughout the study.

I am thankful to Dr. M. N. Dabhi, Research Engineer, AICRP on PHET, Processing and Food Engineering Department, College of Agricultural Engineering and Technology, Junagadh Agricultural University, Junagadh and Prof. N. K. Mistry, Professor, Department of Renewable energy and Rural Engineering for their valuable & timely guidance & suggestions during the course of studies and keenly reviewing the manuscript of the thesis.

I also express my sincere thanks and respect to Dr. N. K. Gontía, Principal and Dean, College of Agricultural Engineering and Technology, Junagadh Agricultural University, Junagadh for their valuable inference during the tenure of my study and research work.

I am thankful to Dr. B. A. Golakiya, Professor and Head, Department of Biochemistry, College of Agriculture, Junagadh for providing necessary facilities and help during experimental work.
I acknowledge with thanks to Dr. A. R. Pathak, Honorable Vice-chancellor, Junagadh Agricultural University, Junagadh and Dr. V. P. Chovatiya, Director of Research & Dean P.G. Studies, Junagadh Agricultural University, Junagadh for providing necessary facilities for conducting the research work.

I am sincerely thankful to Dr. P. R. Davara, Assistant research engineer, AICRP on PHET, Processing and food Engineering Department, College of Agricultural Engineering and Technology, Junagadh for providing guidance and necessary help in statistical analysis during my research work.

I wish to express my deepest gratitude to all the staff members of the Department of Processing & Food Engineering, College of Agricultural Engineering and Technology, Junagadh for their continuous help and constructive suggestions during the course of the study.

I wish to convey my special thanks to my friends Virajbhai, Bhargavbhai, Abhay, Karmchand, Khanjan, Jay, Ulpa, Purnima, Nimisha, Zigma, Kashyap and all other for their co-operation and excellent company throughout my post graduate curriculum.

Diction is not enough to express my gratitude to my beloved family whose selfless love, filial affection, constant encouragement, obstinate sacrifices, sincere prayers, expectations and blessings have always been vital source of inspiration in my life. One last word; since it is practically impossible to list all the names who contributed contributions to my work, it seems proper to issue a blanket of thanks for those who helped me directly or indirectly during the course of study.

Finally, I thank God for bestowing me with divine spirit, essential strength and necessary support to find my way towards a glorious career amidst several hurdles and struggles.

...any omission in this small manuscript does not mean lack of gratitude.

Place: Junagadh
