ACKNOWLEDGMENT

This thesis is the end of my journey in obtaining my M. Sc. (Agri.) Research work. It would not have been possible to write this thesis without the help and support of the kind people around me. At the end of my thesis, it is a pleasant task to express my thanks to all those who contributed in many ways to the success of this study and made it an unforgettable experience for me.

Foremost, I have both, pleasure and privilege in expressing my deep sense of gratitude and sincere regards to the most influential person in my postgraduate career, my Major guide, D. R. Mehta, Associate Professor, Department of Genetics and Plant Breeding, J.A.U., Junagadh and chairman of my Advisory Committee for expertly evaluating, judiciously correcting and continually offering his inspiring guidance, constant encouragement and help during the course of investigation and preparation of manuscript. Words are inadequate to express my gratitude. I could not have imagined having a better advisor and mentor for my M. Sc. (Agri.) study.

My grateful and sincere thanks to the Minor guide of my advisory committee, Dr. U. K. Kandoliya, Associate Professor, Department of Biotechnology, J.A.U, Junagadh, his constant attention and offering valuable suggestions throughout the period of my research work. I have deep regard for member of my advisory committee Dr. S. M. Upadhyay, Professor and Head, Dept. of Agricultural Statistics, J.A.U, Junagadh, for his kind supervision, motivation and support throughout the work. I extend my heartiest thanks to member of my advisory committee Dr. R. S. Tomar, Associate Professor, Department of biotechnology, J.A.U, Junagadh.
